TASKFORCE | WORK BOOTS

When It's Mission Critical, It's the Details That Matter.

Going the extra mile with design details like our MONOWRAP® construction to keep boots lightweight yet super stable. Using extra-rugged 2.2mm split leather on our Desert boots to ensure durability and protection. Featuring "stealth" laces and thread that are invisible to infra-red detection on the Urban Desert. These are the design details that have earned LOWA's reputation for building the world's highest performing service boots since 1923.

LOWA is the only outdoor footwear manufacturer to hold ISO 9001 status for highest quality construction and process standards.

ELITE DESERT

So tough, breathable and lightweight that it's used by the British M.O.D. under the harshest conditions.

- UPPER** 2.0-2.2 mm split leather & fabric, durable rubber toe cap protection
- MIDSOLE** PU for cushioning and support
- OUTSOLE** Vibram® MVS
- LINING** Quick drying fabric
- STABILIZER** 5mm nylon
- FOOTBED** Climate Control
- WEIGHT** 1660 grams

ITEM #	COLOR	SIZES
230 878 0411	desert	8 - 12, 13, 14
260 878 0410	desert	15, 16 - EXTRA
030 880 0410	desert	8 - 12, 13, 14 - WXL
260 879 0410	desert	15, 16 - WXL-EXTRA

ELITE DESERT WS

So tough, breathable and lightweight that it's used by the British M.O.D. under the harshest conditions. Made on a women's-specific last.

- UPPER** 2.0-2.2 mm split leather and fabric, durable rubber toe cap protection
- MIDSOLE** PU for cushioning and support
- OUTSOLE** Vibram® MVS
- LINING** Quick drying fabric
- STABILIZER** 5mm nylon
- FOOTBED** Climate Control
- WEIGHT** 1350 grams

UPLANDER DESERT

Lightweight, tall shafted, desert and field boot.

UPPER	Split leather/Cordura®	MIDSOLE	Sand colored PU
LINING	Quick drying fabric	OUTSOLE	Vibram® Vialta
FOOTBED	Climate Control	STABILIZER	7/8 length, medium
		WEIGHT	1320 grams

ITEM #	COLOR	SIZES
310 244 0410	desert	8 - 12, 13, 14, 15

GSG REVO GTX®

Tall shafted, lightweight service/duty boot with MONOWRAP® frame technology. Waterproof/breathable.

UPPER	Split leather/Cordura®	MIDSOLE	PU with MONOWRAP® construction for stability
LINING	GORE-TEX®	OUTSOLE	Cross
FOOTBED	Climate Control	STABILIZER	3/4 length, stiff
		WEIGHT	1200 grams

ITEM #	COLOR	SIZES
310 979 0999	black	8 - 12, 13, 14

ZEPHYR GTX® HI

Lightweight, tall, waterproof/breathable desert boot with Monowrap® frame technology.

UPPER Split leather/Cordura®
LINING GORE-TEX®
FOOTBED Climate Control
MIDSOLE PU with MONOWRAP® construction for stability
OUTSOLE Cross
STABILIZER 3/4 length, stiff
WEIGHT 1200 grams

ITEM #	COLOR	SIZES
310 532 0410	desert	8 - 12, 13, 14

ZEPHYR GTX® MID *NEW COLOR*

Durable light everyday patrol shoe. Ideal for urban and park use. Flexible enough to run in. Now available in two new colors, light olive and grey.

UPPER Split leather/Cordura®
LINING GORE-TEX®
FOOTBED Climate control
MIDSOLE PU with MONOWRAP® construction for stability
OUTSOLE Cross
STABILIZER 3/4 length
WEIGHT 1100 grams

ITEM #	COLOR	SIZES
310 537 0999	black	8 - 12, 13, 14
310 537 0411	desert	8 - 12, 13, 14

ITEM #	COLOR	SIZES
310 537 0934	sage	8 - 12, 13, 14

ZEPHYR GTX® MID WS

Durable light everyday patrol shoe. Ideal for urban & park use. Flexible enough to run in. Made on a women's-specific last.

UPPER	Split leather/Cordura®	MIDSOLE	PU with MONOWRAP® construction for stability

		WEIGHT	1730 grams

ITEM #	COLOR	SIZES
210 866 0999	black	8 - 12, 13, 14

Photo incorrect: shaft hooks will be changed to closed loops in production.

DETAILS THAT MATTER

PU vs EVA

We believe in Polyurethane (PU) for midsoles. It's a terrific shock absorber, rebounds well, has a long life and is durable. A PU midsole will last longer on the trail and offer better comfort throughout days and miles of use. You will get two to five times the performance life compared to molded EVA midsoles. PU, whether we cement it to the boot like on a Backpack boot or inject it as on an ATC shoe, has very little manufacturing waste and is a much cleaner product to work with.

We use EVA when light weight is a primary design factor such as in the Vajolet GTX® or Terek GTX®. These boots are intended for those who need to travel light and fast. Our Edge™ midsole is a double molded EVA where the material is more dense than a normally molded EVA midsole, with more durable and stable sidewalls. Most importantly, the surfaces are prepared for gluing using a non-toxic UV treatment and not the typical chemical bath. These midsoles are made in Italy and cost more. But, with added durability, lifespan and reduced impact, we think you will find them well worth the investment.

MEGA CAMP

Tall ankle shaft for extra support in difficult terrain and when carrying heavy loads. Ideal for dry climates.

UPPER	Sturdy, water-repellent full grain leather	MIDSOLE	PU for cushioning and comfortable walking
LINING	Leather	OUTSOLE	Vibram® Tsavo
FOOTBED	Climate Control	STABILIZER	5 mm nylon
		WEIGHT	1920 grams

ITEM #	COLOR	SIZES
211 780 0999	black	8 - 12, 13, 14

SUPER CAMP

Ideal for dry climates.

UPPER	2.5-2.7 full grain leather	MIDSOLE	PU for cushioning and comfortable walking
LINING	Leather	OUTSOLE	Vibram® Tsavo
FOOTBED	Climate Control	STABILIZER	5 mm nylon
		WEIGHT	1860 grams

ITEM #	COLOR	SIZES
210 843 0999	black	8 - 12, 13, 14

URBAN MILITARY

All outer materials including laces have been chosen for low IR-reflection. Special order only.

UPPER	Full grain leather with open and breathable Cordura®	MIDSOLE	PU for cushioning and support, with SPS inserts
LINING	Quick drying fabric	OUTSOLE	Vibram® Anaconda
FOOTBED	Climate Control	STABILIZER	5 mm nylon
		WEIGHT	1540 grams

ITEM #	COLOR	SIZES
210 854 0999	black	8 - 12, 13, 14

Photo incorrect: shaft hooks will be changed to closed loops in production.

LINING	GORE-TEX®	OUTSOLE	Vibram® Vialta
FOOTBED	Climate Control	STABILIZER	7/8 length, medium
		WEIGHT	1540 grams

ITEM #	COLOR	SIZES
310 243 0999	black	8 - 12, 13, 14

DETAILS THAT MATTER

CLIMATE CONTROL

This moisture management system keeps feet dry, protecting you against blisters and hot spots. A series of perforations or holes inside the boot's cuff lining allows heat and moisture to back out through the holes. Moisture is pulled away from the foot, evaporating while you walk.

GORE-TEX® CONSTRUCTION

LOWA's Lasted GORE-TEX® Construction

So special, it's patented. We use a proprietary lasted method to allow for a smooth and seamless GORE-TEX® lining which reduces hot spots. GORE-TEX® laminate is stitched to the upper at the cuff, and then attached to the insole. The bottom is then sealed with GORE-TEX® tape to provide a waterproof gasket at the insole of the boot.

Safety Starts With the Right Details

LOWA's Work Boots are designed with comfort, support and safety in mind. Our proprietary MONOWRAP® construction allows us to build lightweight yet extremely supportive boots that carry all the key safety features needed for today's work environments. Steel toes and full-length steel shanks, full padded bellows tongue, anti-static soft fleece insoles, waterproof/breathable GORE-TEX® lasted linings, plus anti-slip, anti-static soles - those are the kind of details that are standard on LOWA Work Boots.

RENEGADE WORK GTX® LO

Versatile waterproof/breathable safety shoe. Meets EIN ISO 20345 Safety Shoe Requirements for S3 rating.

UPPER	Water-resistant Nubuck/Cordura®	MIDSOLE	PU with MONOWRAP® construction for stability

IT ALL STARTS UNDERFOOT

VIBRAM® TSAVO

- VIBRAM® Trek Compound
- Toe-bumper for protection and grip
- 360 degree multi-traction lugs
- Lugged shank and undercut heel for traction on roots and logs
- Increased surface area for durability at toe and heel high-wear points
- Self cleaning lugs
- PU midsole for shock absorption & SPS technology for prevention of over-pronation & supination
- Cemented attachment - soles can be replaced

VIBRAM® MVS

- VIBRAM® Trek Compound
- SPS anti-pronation/supination zones lateral heel, medial forefoot reinforcement
- PU midsoles for shock absorption, cushioning and comfort
- Increased surface area at high-wear points for durability
- Thrust-lugs for forward traction, braking lugs for stopping
- Rounded heel for easy walking motion
- Cemented attachment - soles can be replaced

VIBRAM® ANACONDA

- Proprietary LOWA outsole
- Lightweight bi-injected PU midsole for underfoot cushioning and flex
- Pronation and supination zones in lug design provide added stability & help to balance the foot position
- Self-cleaning lug pattern
- Increased surface area
- Direct inject construction - soles cannot be replaced
- Also available in Sand

VIBRAM® VIALTA

- Easy to walk in
- PU midsole for good shock-absorption
- Excellent grip
- Light weight bi-injected, with pronation and supination zones in lug design for stability and balance
- Self cleaning lug pattern
- Direct inject construction; soles cannot be replaced

VIBRAM® VIALTA
Sand option

LOWA CROSS

- Hiking-oriented tread with a special adjustment of tread-elements
- Very good grip and traction on every surface
- Bi-injected PU frame for cushioning and assistance
- 3/4 length stabilizer, stiff

LOWA boots are warranted to be free from defects in workmanship and materials for a period of 12 months from the date of purchase. Your exclusive remedy for break of such warranty is repair or replacement of your LOWA boots at LOWA's discretion. If your LOWA boots need repair or replacement due to defect in workmanship or materials, simply return them to the LOWA dealer where you purchased them. You will need proof of purchase. Make sure that your return request falls within 12 months from the date of purchase.

- See our website at LOWAboots.com for directory listing of our dealers and warranty FAQ's. Please note that fit, paint thinner and lawn chemicals void the warranty.
- "Fit" is not covered in the warranty. You do the fitting, not us!

All product weights are based on men's 9 and women's 6.5 (or women's 7 for Zephyr GTX® Mid Ws). Color and product details subject to change. Actual colors may vary from printed catalog.
