

SUPERfeet®

THE PREMIUM INSOLE®

Make a lasting impression.

COPPER DMP®

Offering a personalized fit
without the need for heat.

Superfeet's COPPER DMP® has a unique 3-layer foam system featuring our Dynamic Molding Process® to give your feet a personalized fit without the need to heat the insole in an oven. While the foam layers take an impression of the bottom of your foot, the stabilizer cap provides proper biomechanical support. The DMP® foam combined with our trusted topcover makes this product a perfectly comfortable choice for low-impact activities such as golf, walking or standing for long periods.

KEY PRODUCT FEATURES

- 1 Unique 3-layer foam system featuring our Dynamic Molding Process® provides a personalized fit for your feet without the need to heat the insole in an oven.
- 2 Contoured shape, based on the proven principles of podiatric medicine, properly adapts 2-dimensional footwear to the 3-dimensional foot.
- 3 Encapsulating Stabilizer System® [ESS]® provides ideal biomechanical support, allowing feet to perform in their optimal functioning position.
- 4 Deep heel cup cradles the calcaneal pad to optimize natural shock absorption.
- 5 Nylon top cover allows the foot to move slightly with the insole, reducing friction inside the shoe.
- 6 Agion® antimicrobial-treated top cover inhibits the growth of odor-causing bacteria.

FEATURED PRODUCT TECHNOLOGY

- 1 Friction-control nylon top cover allows the foot to move without creating excessive friction.
- 2 Highly impressionable memory foam top layer cradles the shape of the foot.
- 3 Interactive PU foam middle layer provides comfort without compromising stability.
- 4 Proprietary 'D-Foam' bottom layer and polypropylene stabilizer cap maintain shape and support.

Superfeet Copper DMP® features a proprietary stabilizer cap for optimal underfoot support. When integrated with the shape and design of the foam full length, this unique combination provides stability, comfort and a calculated degree of shock absorption for different activities, footwear, and foot types.

We treat the top covers of all our Trim-to-Fit Premium Insoles with Agion® antimicrobial technology. Agion's natural, silver-based antimicrobial is built right into our products to provide long-lasting protection against bacteria. Agion adds continuous cleanliness to our Premium Insoles - creating a clean, comfortable combination.
