OUTDOOR COLLECTION 2022

#ForTheNextStep

TRADITION & INNOVATION SINCE 1923

REASON FOR OPTIMISM

What a crazy last year and a half it's been. When we last saw each other in early 2020, the year was poised to be good. Then, with Covid, the bottom fell out. Retailers closed their doors and couldn't sell anything. Staffs were laid off. Invoices quickly came due. At LOWA, we went into "do what we can do" mode with the goal to work with every dealer. Orders were postponed, canceled or adjusted at a dealer's request. Payment plans were worked out with every dealer who asked for one. Our office staff learned how to work from home and our warehouse crew came to work in split shifts to keep themselves safely separated. In the end, we don't think we lost a single dealer due to a Covid induced closure! Hooray for you!

Then, like the dormant grass after a long winter that begins to turn green as temperatures warm, the business came back. Slowly at first through the early and mid-summer, and then picking up momentum into the fall. If there was a Covid winner, it was the outdoors, as consumers socially distanced outside on foot, bikes, boats and any way they could. By Labor Day 2020, dealers were ordering, paying their bills and hiring back staff.

We thank you for coming back so quickly! It really helped us regain our business and in the end, 2020 was not a lost year.

While all of this has been happening here in the US, our German team confronted similar challenges. Production stops and delays have been frustrating. The sales and product development teams have been working from home at least 50% of the time. Not every project for Spring 2022 will be finished in time and some have been postponed. But for those that are ready, we have great

faith they meet the market demands. (Actually, there are some new-for-2021 products that we are also excited to finally show you in-person, knowing most presentations were virtual last year.)

In our core backpack business, you will find updated **Camino GTX** and **Mauria GTX** models, bringing freshness to these market leaders. In our ATC hiking category, we upgraded the **Toro** family, are bringing back **Zephyrs** and introduced a **Taurus** family of light hikers, the perfect boot or shoe to meet the demands of all those new weekend hikers! For our ATS sport category, the all-new **Axos GTX Mid & Lo** models are built on a new cross-over Camara sole with seamless upper constructions for a new sporty look from LOWA. The Camara sole also presents itself on **Malta GTX Mid & Lo** in our Everyday Outdoors category as a great combination for outdoor adventures and lifestyle. Customers can choose one boot or shoe for the best of both worlds. Overall, we think you will be impressed by all that's new from a talented development staff that worked hard despite having one hand tied behind their collective back.

LOWA's production remains in Europe, and we are adjusting to new levels of production brought on by all the new outdoors consumers. We will continue the fight for deliveries with the steamship companies to improve deliveries and reduce backorders. In the meantime, innovation in product and service to you, our customers, is what will truly lead us forward.

Thank you for your business!

EXPEDITION 8000 EVO RD

MSRP: \$1150

Our most protective and insulated mountaineering boot was developed in collaboration with LOWA Pro Team member Ralf Dujmovits for extreme high altitude expeditions. It's loaded with technical features to keep your feet protected, warm, dry and comfortable on even the most punishing climbs, and has been worn on every 8000 meter peak in the world. The insulated double boot with reflective-coated technologies retains valuable body heat while the high outside TIZIP closure on the ceramic-coated fabric gaiter provides essential waterproof protection and durability. Automatic crampon compatible.

- Upper: Abrasion-Resistant Synthetic Fabric w/ Full-length TIZIP
- Lining: Textile/PrimaLoft® 400g
- Insole: Insulate Pro Alu-Coated w/ Fleece
- Midssole: Dual-density EVA
- Outsole: VIBRAM® DOLENT - HIGH ALPINE
- Weight: 1400 g/Single Shoe
- County of Origin: Italy

2300627299 lime/black 5 - 13 whole

EXPEDITION 6000 EVO RD

MSRP: \$900

We collaborated with renowned mountaineer Ralf Dujmovits to develop the Expedition 6000 Evo RD, designed for 6,000 meter peak expeditions. It's loaded with technical features to keep your feet protected, warm, dry and comfortable at high altitude, including an insulated double boot with reflective-coated technologies to retain valuable body heat. The high outside TIZIP closure on the ceramic-coated fabric gaiter provides essential waterproof protection and durability, and the high wall rubber rand protects against abrasion. Automatic crampon compatible.

- Upper: Abrasion-Resistant Synthetic Fabric w/ Full-length TIZIP
- Lining: Textile/PrimaLoft® 200g
- Insole: Insulate Pro Alu-Coated w/ Fleece
- Midssole: DuraPU®
- Outsole: VIBRAM® DOLENT - ALPINE
- Weight: 1300 g/Single Shoe
- County of Origin: Italy

2300647299 lime/black 5 - 12, 13

ALPINE ICE GTX

MSRP: \$650

This high performance alpine boot with an integrated gaiter is designed with a close-to-ground outsole, an anatomical fit feature that uses memory foam to contour to the foot's shape to help prevent fatigue, and a slingshot heel for secure foothold, comfort and rock feel. Very stiff underfoot, insulated yet extremely light in weight for a low altitude mountaineering boot, and automatic crampon-compatible, this is truly a "Formula One" boot for mixed climbing and low altitude expeditions. Durably waterproof/breathable.

- Upper: Abrasion-Resistant Synthetic Fabric w/ Full-length TIZIP
- Lining: GORE-TEX DURATHERM®
- Insole: Insulate Pro Alu-Coated w/ Fleece
- Midsole: DuraPU®
- Outsole: VIBRAM® ALP TRAC® ICE
- Weight: 875 g/Single Shoe
- County of Origin: Italy

2303157299 lime/black 5 - 12, 13, 14

ALPINE EXPERT GTX

MSRP: \$460

A modern take on a versatile, all-around alpine boot, this insulated model's design balances flexibility with durability, and excels in both hiking comfort and climbing performance. The Fit Wing features allows for easy ankle articulation, making it ideal for heavy backpacking trips as well as for mixed climbing. Automatic crampon-compatible. Durably waterproof/breathable.

Upper: Mountaineering Split Leather/Microfiber
 Lining: GORE-TEX, PrimaLoft® 400g
 Insole: Insulate Pro Alu-Coated w/Fleece
 Midsole: DuraPU®
 Outsole: VIBRAM® ALP TRAC® ICE
 Weight: 870 g/Single Shoe
 County of Origin: Italy

ALPINE SL GTX

MSRP: \$450

A breakthrough in alpine boot design, this next-gen concept was developed in conjunction with alpinist David Göttler who sought a super-lightweight high altitude training/acclimatization boot. The flexible LOWA REPTEX abrasion-resistant upper is injected with PU "scales" that mimic a reptile's protective skin, thus replacing a traditional heavy rubber rand, while the VIBRAM® Alp Trac® SL sole features Litebase technology that substantially reduces the weight and thickness of the sole without affecting its traction or wear resistance. Combination crampon compatible. 100% vegan. Durably waterproof/breathable.

- Upper: Synthetic/Microfiber
- Lining: GORE-TEX
- Insole: Climate Control
- Midsole: EVA
- Outsole: VIBRAM® ALP TRAC® SL
- Weight: 550 g/Single Shoe
- County of Origin: Italy

2100820353 flame 7 - 12, 13, 14

ALPINE EVO GTX

MSRP: \$425

Designed for the elite alpinist who's tackling challenging peaks, this super technical model is nimble and lightweight yet loaded with performance details. The new sole package includes a PU wedge for cushioning and a stiffer TPU wedge for stability, PU-injected LOWA Reptex® protective reinforcements on the upper, a carbon -reinforced stabilizer, and a Lycra® collar to protect from snow and debris. Semi-automatic crampon compatible. Durably waterproof/breathable.

- Upper: Split Leather/Synthetic
- Lining: GORE-TEX
- Insole: Climate Control
- Midsole: DuraPU®
- Outsole: VIBRAM® ALP TRAC® NUMEN
- Weight: 760 g/Single Shoe
- County of Origin: Italy

2100707253 lime/flame 7 - 12, 13, 14

CEVEDALE EVO GTX

MSRP: \$360

This versatile guide boot features a thinner sole profile for precise terrain feel and great ankle flex for hiking comfort. It's an ideal boot for moderate spring mountaineering routes or long approaches with a heavy load. Combination crampon compatible. Durably waterproof/breathable.

Upper: Mountaineering Split Leather/Microfiber
Lining: GORE-TEX
Insole: Climate Control

TIBET GTX

MSRP: \$400 / \$410

A workhorse of a boot and a cult favorite among hardcore backpackers and hunters, the Tibet GTX is super stable, making it ideal for carrying heavy loads over long distances. Thoughtfully designed features, such as the handy I-Lock lacing cam which allows you to separate the lace tension between the ankle and the top of the foot, will keep your feet comfortable over many miles of tough terrain. The lasted GORE-TEX lining provides durably waterproof/breathable protection against the elements.

CAMINO EVO GTX

MSRP: \$330

The acclaimed Camino GTX is now even greater in 2022! We've made a few small updates to make it even more stable and comfortable, including creating an ankle "patch" area to allow for more ankle flex when walking uphill. The new sole package improves the boot's rolling properties, and enhances stability and comfort underfoot via strategically placed cushioning under the heel and ball of the foot. As always, the LOWA lacing system remains state of the industry, preventing pressure points and ensuring all-day comfort. Durably waterproof/breathable.

LOWA® EXPLORER II GTX MID Ws

NEW

MSRP: \$250

We've updated the LOWA® Explorer family of modern leather trekking boots with the addition of a TPU heel cap for extra protection and contrast lacing for a sportier look. All the other comfort features that have made the LOWA® Explorer family so successful: A softer, lighter-weight DynaPU®+ midsole with a cushioning heel wedge, an easy walking flex plus an ultra-grippy rubber outsole. Durably waterproof/breathable. Made on a women's-specific last.

Upper: Split Leather/Fabric
 Lining: GORE-TEX
 Insole: Climate Control
 Midsole: DynaPU®+
 Outsole: VIBRAM® ROCK TRAC® EVO
 Weight: 490 g/Single Shoe

KODY EVO GTX MID JUNIOR

NEW

MSRP: \$135 / \$145

We designed the Kody in conjunction with renowned pediatric orthopedist Micha Bahr MD to answer the need for a high-quality and comfortable children's outdoor boot that would make hiking fun. Key to its success is its lateral stability that helps prevent ankle rolling, and a roomy toe area to prevent little toes from feeling crowded. Now in its fourth generation, the Kody Evo features an updated midsole/outsole package for even more stability and traction, and fun new upper graphics. Durably waterproof/breathable.

Upper: Split Leather/Fabric
 Lining: GORE-TEX
 Midsole: DynaPU®
 Outsole: VIBRAM® RENEVO II JUNIOR
 Weight: 285 g/Single Shoe
 County of Origin: Slovakia

DYNAPU®

6400509743 anthracite/blue 27 - 35
 6500509743 anthracite/blue 36 - 40

CADIN GTX MID JUNIOR

NEW

MSRP: \$140 / \$150 / \$160

This new style has a modern "big kid" boot look that will appeal to both children and parents. Featuring protective toe and heel caps, a taller shaft for support and protection on the trail and a supination-control design to help prevent ankle roll. Durably waterproof/breathable.

Upper: Split Leather/Fabric
 Lining: GORE-TEX
 Midsole: DynaPU®
 Outsole: LOWA® TRAC® LITE JUNIOR
 Weight: 270 g/Single Shoe
 County of Origin: Slovakia

CAMINO EVO GTX FG

MSRP: \$360

The Camino GTX FG returns for 2022, with made a few small updates to make it even more stable and comfortable, including creating an ankle "patch" area to allow for more ankle flex when walking uphill. The new sole package improves the boot's rolling properties, and enhances stability and comfort underfoot via strategically placed cushioning under the heel and ball of the foot. As always, the LOWA lacing system remains state of the industry, preventing pressure points and ensuring all-day comfort. Durably waterproof/breathable.

Upper: Full Grain Leather
Lining: GORE-TEX
Insole: Climate Control
Midsole: DuraPU®
Outsole: VIBRAM® APPTRAIL II
Weight: 775 g/Single Shoe
Country of Origin: Germany

LOWA BOOTS RENTAL PROGRAM

The **LOWA Rental Program** is an ideal way to introduce prospective outdoor customers to LOWA's quality and fit. From heavy-duty mountaineering boots to rock climbing shoes + lightweight multifunction boots, these models deliver the kind of comfort and performance that's essential for great days of hiking or climbing.

- Rental orders are accepted for these featured models, colors and sizes.
- 7% discount from wholesale, regardless of quantity, although for initial orders size runs are necessary per model. Dating: 50% net 60 days, 50% net 120 days.
- For each pair ordered LOWA will add one pair of the appropriate LOWA socks to be used as either fit socks or as a rental incentive.
- Additional LOWA socks can be bought for rental purposes only at a cost of ATS/\$7, ATC/\$8, Trekking/\$10. Socks for retail are available at regular pricing and terms.
- LOWA will supply one starter can of Water Stop with each rental order and one tube of Active Cream (with Trekking/Backpacking boot orders).
- LOWA will give rental dealers a 10% credit based on the original net purchase price upon return of used boots or shoes with wearable tread and no holes, tears, burns or other unusual damage towards the purchase of new rentals.
- LOWA will add a rental directory to www.lowaboosts.com in Spring 2022 for consumers. LOWA will also do two Facebook posts for each rental dealer. Rental dealers should send a logo at the time of order placement.

LOWA EXTRA TOE ROOM
 Kids 12 mm
 Adults 15 mm

LOWA recommends based on the foot length (mm) an extra toe room of 15 mm for adults (12 mm for kids). Due to individual foot shapes or preferences in fit this recommendation may vary.

The foot length (mm) is a recommendation of LOWA, which is based on scientific findings.

LOWA TECHNICAL FEATURES – GLOSSARY

Uppers & Interior Constructions

ADJUSTABLE TONGUE

Perfect tongue placement, for a precise fit.

ANATOMICAL FIT

The anatomical shape of this carbon fiber insert wrapped in PU foam provides natural arch support and better fit.

C4-TONGUE

The anatomically shaped, padded tongue is designed to improve ankle flex and decrease pressure points, for all-day comfort.

FLEXFIT®

Easier ankle movement due to integrated "FlexZone" and flexible lace.

FLEXFIT SYNCRO®

Asymmetrical upper construction for synchronized movement of the boot's shaft with the lower leg.

I-LOCK

A cam lace-loop placed at the top of the foot that grabs the lace and holds it tight, for secure and flexible shaft lacing.

ISOLATED INNER BOOT

A removable inner boot equipped with a PrimaLoft® or GORE TEX membrane.

LIGHTER WEIGHT

All dimensions, materials have been optimized to reduce weight while working to maintain highest performance.

LOWA REPTEX®

Abrasion-resistant PU "scales" mimic a reptile's protective skin and helps protect the boot's upper, in turn reducing weight on models where light weight is paramount.

MINIMAL SEAMS

Construction design minimizes the number of seams to prevent possible friction or pressure points

SHOCK ABSORBER

Every time a foot is planted, the heel can absorb many times the body's weight. To reduce this stress and to make heel support even more comfortable, a heel cushion was developed for the shank as a way of creating a pleasant walking sensation.

SLINGSHOT

Provides a very snug fit around the heel.

TEXTILE LINING

A textile lining is pleasantly lightweight. The textile material is durable, easy to care for and comfortable.

WATERPROOF ZIPPER

Protects against moisture and cold in extreme conditions.

Uppers & Interior Constructions

Midsoles

DOUBLE INJECTION

Comfort and cushioning is further improved for specific uses with a complex injection-molding process using a layering process.

FIT FRAME

The shell-like construction of the sole envelops and secures the foot to provide optimal fit, absorbs shock and rebounds well, and is extremely durable.

LOWA DURAPU®

This denser PU material is used in our Classic & ATC models. It absorbs shock and rebounds well, and is extremely durable.

LOWA DYNAPU®

LOWA's proprietary PU midsole material is extremely lightweight yet provides ideal support, durability and rebound.

LOWA DYNAPU®+

LOWA's proprietary PU midsole, now available for cemented, board-lasted sole construction. It's extremely lightweight, yet provides ideal support, durability and rebound.

MONOWRAP®

Our exclusive PU frame technology delivers outstanding stability and support. We use three different PU frame designs to provide lateral support. The higher the frame, the more support.

SINGLE INJECTION

This manufacturing method of injection molding offers the highest precision with a direct and solid connection between the sole and the upper.

Lacing

2-ZONE LACING

Independently adjustable lacing zones, one on the forefoot and one on the upper, allow user to customize the lacing tension and do special foot-hold lacing techniques.

FIT RIBBON

Minimalist lacing system combines highest performance with maximum weight reduction area.

FIT WING

The shell-like construction of the sole envelops and secures the foot to provide optimal fit.

I-LOCK

A cam lace-loop placed at the top of the foot that grabs the lace and holds it tight, for secure and flexible shaft lacing.

LOWA FLEX®

Upper construction with freely moving, individually mounted lace hooks provides a more individualized fit and allows the lacing system to flex as you walk, for better comfort.

ROLLER EYELETS

Metal eyelets with small rollers minimize friction, equalize tension.

X-LACING®

Patented LOWA technology holds the tongue in place, both vertically and horizontally, preventing slippage and pressure points and blisters.

Outsoles

CLIMBING ZONE

This flat support zone under the toes makes easy scrambling possible thanks to a more secure foot placement.

CLOSE-TO-THE-GROUND

A lower-profile platform for better sole contact with ground.

CLOSE-TO-THE-ROCK

Flatter toe profile is designed to keep the distance between foot and ground as small as possible, or precise toe-hold.

LOWA PU OUTSOLE

Conceived and developed by LOWA, this PU outsole has a tread design with varying lugs based on intended use. This outsole is used in particular for children's outsoles because it offers a good blend of lightness and abrasion resistance.

LOWA RUBBER OUTSOLE

Conceived and developed by LOWA, this rubber outsole varies in its rubber blend has a tread design with varying lugs, both factors based on intended use. Ideal for off-trail use.

RESOLEABLE

LOWA can resole this product for an additional fee.

SLIP RESISTANCE

The sole meets the highest anti-slip standards. Slip protection depends primarily on the contact areas of the sole. The shoe provides optimal slip protection on slick surfaces as well as good grip on terrain.

Footwear Stiffness

FOOTWEAR STIFFNESS

We build our boots with varying degrees of flexibilities depending upon their intended use.

STIFF

MODERATELY STIFF

FLEXIBLE

VERY FLEXIBLE

COLD WEATHER BOOTS

Insulated cold weather footwear for winter days with **VERY COLD** conditions.

- PrimaLoft® 400g insulation adds extra warmth.
- Insulated insole protects from cold underfoot.

These models are insulated for winter days with **cold conditions**.

- GORE-TEX Partelana® warm synthetic-wool lining keeps your feet warm and dry
- Insulated fleece insole protects against chill from below

VIBRAM® DOLENT - HIGH ALPINE

- mountaineering wide-cut profile design
- high edge stability for optimum precision foot placement
- self-cleaning sole profile

EXPEDITION 8000 EVO RD

VIBRAM® DOLENT - ALPINE

- mountaineering profile design
- high edge stability for optimum precision foot placement
- self-cleaning profile

EXPEDITION 6000 EVO RD

VIBRAM® ALP TRAC® ICE

- alpine profile design with high tread depth and special design for icy and snow-covered surfaces
- "Climbing Zone" at the tip of the sole for precise stepping
- sole structure suitable for use with rigid crampons (step-in)

ALPINE ICE GTX | ALPINE EXPERT GTX / Ws | ALPINE EXPERT II GTX

VIBRAM® ALP TRAC® SL

- alpine profile design with medium tread depth
- large "Climbing Zone" at the tip of the sole for precise stepping
- self-cleaning profile
- VIBRAM® Litebase makes for remarkable weight reduction without compromising the performance

ALPINE SL GTX

VIBRAM® ALP TRAC® NUMEN

- alpine profile design with medium tread depth
- large "Climbing Zone" at the tip of the sole for precise stepping
- self-cleaning profile

ALPINE EVO GTX | CADIN II GTX MID / Ws

NEW

VIBRAM® SCALATORE EVO

- optimized profile design for Alpine use
- very good relationship between the sole contact area and the sole surface for the best-possible traction on terrain
- "Climbing Zone" on the sole tip for precise movement on terrain

CEVEDALE EVO II GTX / Ws

VIBRAM® APPTRAIL

- modern trekking boot tread with increased contact area
- self-cleaning tread for excellent grip
- pronounced front heel edge for good traction downhill

TICAM II GTX

78

VIBRAM® APPTRAIL II

- modern trekking boot tread with increased contact area
- self-cleaning tread for excellent grip
- pronounced front heel edge for good traction downhill

CAMINO EVO GTX | CAMINO EVO LL | CAMINO EVO GTX FG

VIBRAM® APPTRAIL II Ws

- modern trekking boot tread with increased contact area
- self-cleaning tread for excellent grip
- pronounced front heel edge for good traction downhill

MAURIA EVO GTX Ws

NEW

VIBRAM® MASAI

- excellent grip on all surfaces thanks to self-cleaning mountaineering tread
- rough braking and rappelling studs
- undercut heel front for excellent grip
- "Climbing Zone" at the tip of the sole

TIBET GTX / Ws | TIBET LL / Ws | HUNTER GTX EVO EXTREME | TIBET GTX HI | BAFFIN PRO LL / Ws

VIBRAM® NATURAL

- modern trekking tread for excellent grip
- wider platform for stability
- easy flex for comfortable walking

RANGER III GTX | TREKKER

VIBRAM® ROCK TRAC® EVO

- alpine profile design with increased profile depth and excellent grip on every type of terrain
- VIBRAM® MegaGrip rubber mixture for exceptional slip protection on wet and dry terrains
- special triangle-shaped profile design for proven and exceptional slip protection

LOWA® EXPLORER II GTX MID / Ws | LOWA® EXPLORER II GTX LO / Ws | LOWA® EXPLORER II LO / Ws

VIBRAM® TRAC® LITE II

- profile designed for outdoor use
- very good flexing action
- perfect grip

LADY LIGHT GTX | BALDO GTX | BADIA GTX Ws

LOWA® CROSS II

- hiking-oriented tread with a special adjustment of tread elements
- very good grip and traction on different surfaces

ZEPHYR GTX MID / Ws

VIBRAM® EVO

- ensures stability and non-slip performance
- outdoor-oriented tread
- optimum cushioning

RENEGADE GTX MID / Ws | RENEGADE LL MID / Ws

VIBRAM® EVO TRAC®

- outdoor-oriented tread
- very good grip and traction on different surfaces
- special toe and heel design for better uphill and downhill traction

RENEGADE GTX LO | RENEGADE GTX LO Ws

LOWA® LIMA

- multidirectional profile alignment that provides a solid grip on moderate terrain
- distinctive heel edge for pleasant mountain climbs

TAURUS PRO GTX MID / Ws | TAURUS PRO GTX LO / Ws

LOWA® MULTI TRAC® II

- triangular profile design for ideal slip resistance and traction on various surfaces and in moderate terrain
- abrasion-proof and flexible rubber outsole with comfortable rolling characteristics
- designed for multifunctional outdoor use traction on uphill and downhill

TORO PRO GTX MID / Ws | TORO PRO LL MID / Ws | TORO PRO GTX LO / Ws

LOWA® CAMARA / Ws

NEW

- large profile design that offers a bigger contact surface
- solid grip on easy terrain or during urban outings

LOWA® MULTI TRAC®

- triangular profile design for ideal slip resistance and traction on various surfaces and in moderate terrain
- abrasion-proof and flexible rubber outsole with comfortable rolling characteristics

LOWA® ENDURO EVO

- sharp, medium high rubber lugs
- self-cleaning, smooth surfaces
- grip and traction in different terrains

AXOS GTX MID / Ws | AXOS GTX LO / Ws | MALTA GTX MID / Ws | MALTA GTX LO / Ws

LOWA® GT

NEW

- angular profile design provides a large contact surface
- solid grip on easy terrain or during urban outings

INNOX PRO GTX MID / Ws | INNOX PRO GTX LO / Ws | ZIRROX GTX LO / Ws

LOWA® GT Ws

NEW

- angular profile design provides a large contact surface
- solid grip on easy terrain or during urban outings

MADDOX GTX LO / Ws

LOWA® SPEEDHIKING

- sure grip tread
- traction on different surfaces
- excellent roll-through/push-off

LOWA® FUSION® LO

LOWA® URBAN TRAIL

NEW

- profile design optimized for city comfort or on light terrain
- channels repel moisture and dirt
- rolling comfort

LOWA® FUSION® LO Ws

LOWA® URBAN TRAIL Ws

NEW

- profile design optimized for city comfort or on light terrain
- channels repel moisture and dirt
- rolling comfort

GORGON GTX / Ws

LOWA® PATROL

- PU midsole for good shock-absorption
- oil and benzene-resistant outsole
- excellent grip

VALLETTA | VENTO

VALLETTA Ws | VENTO Ws

RENEGADE II N GTX HI TF | R-8S GTX PATROL

LOWA® TACTICAL Z TRAC®

- optimized profile design for maximum slip resistance on a wide range of terrains
- ISO-certified sole with "Fast Roping" insert

Z-8S GTX C | Z-6S GTX C

VIBRAM® RENEVO II JUNIOR

- MONOWRAP® sole construction
- stable and non-slip rubber outsole
- outdoor-oriented tread
- ideal for many different outdoor-activities

KODY EVO GTX MID JUNIOR

LOWA® TRAC® LITE JUNIOR

- profile designed for outdoor use
- very good flexing action
- perfect grip

CADIN GTX MID JUNIOR

LOWA® MULTI TRAC® KIDS

- triangular profile design for ideal slip resistance and traction on various surfaces and in moderate terrain
- abrasion-proof and flexible rubber outsole with comfortable rolling characteristics
- designed for multifunctional outdoor use

LOWA boots are warranted to be free from defects in workmanship and materials for a period of 12 months from the date of purchase. Your exclusive remedy for break of such warranty is repair or replacement of your LOWA boots at LOWA's discretion. If your LOWA boots need repair or replacement due to defect in workmanship or materials, simply return them to the LOWA dealer where you purchased them. You will need proof of purchase. Make sure that your return request falls within 12 months from the date of purchase.

- See our website at www.lowaboos.com for directory listing of our dealers and warranty FAQ's. Please note that fit, paint thinner and lawn chemicals void the warranty.
- "Fit" is not covered in the warranty. You do the fitting, not us!

All product weights are single shoe weights based on men's 9, women's 6.5 for cemented-construction models and 7 for injected-construction models, and kids 31. Color and product details subject to change. MSRP - this pricing is subject to change without notice. When in doubt, please refer to the Outdoor Collection 2021 Price List for final pricing.
