LIFE-CHANGING COMFORT

Developed more than 40 years ago by two experts in podiatric science, the naturally supportive, energizing foundation of signature Superfeet shape is the I-never-knew-I-could-feel-this-good-secret under the feet of athletes, outdoor enthusiasts and physicians worldwide.

THREE KEY ELEMENTS TO SUPERFEET SHAPE

1. SCULPTED FOR COMFORT & PAIN RELIEF

Contoured silhouette cradles your heels and hugs your arches, providing relief for tired, aching feet.

2. NATURALLY SUPPORTIVE

Enhances the way your feet are intended to move, dispersing impact and decreasing stress and strain on your body.

3. AN ENERGIZING FOUNDATION

Like the perfect mattress, extra supportive to keep your feet fresh from the moment you slip into your shoes until the day is done.

ME3D®

3 D - P R I N T E D I N S O L E S

YOUR BEST MOVE YET

Using cutting-edge innovations in dynamic data capture and 3D-printing technology, Superfeet ME3D insoles deliver personalized shape and support that responds and adapts to the unique way each foot moves. One-of-a-kind support for your customers; a no-inventory solution for your business.

AVAILABLE IN TWO STYLES

ME3D®

Thin high-density foam for a slimmer fit
Sizes: B-G

ME3D® MAX

Premium dual-layer cushioning for plush support
Sizes: B-G

PERSONALIZATION FEATURES

1 ENHANCE NATURAL MOTION WITH FIVE ZONES

Independently tuned to adapt and respond to the unique way your customer moves

2 CUSTOM ARCH SUPPORT PROFILE

Created to match the geometry of each foot for truly personalized support

3 DIRECTIONAL FLEX LINES

Calibrated to each foot's dynamic pressure pattern to facilitate easy heel-to-toe transition

SUPERFEET FOR SNOW

With a 45 year legacy that began in the ski industry, Superfeet is the secret hiding inside the boots of skiers and snowboarders worldwide.

Experience the improved fit, stability and long-lasting comfort
only Superfeet can provide.

NEW

WINTER INSOLES

Made with gravity-defying EVOLyte® carbon fiber that keeps its shape with every turn, these all-new insoles deliver added stability, enhanced edge control and long-lasting comfort inside ski and snowboard boots.

AVAILABLE IN TWO STYLES

WINTER COMFORT

Sizes: B-F | FL8100

Stability and comfort for comfort fit boots

WINTER COMFORT THIN

Sizes: B-F | FL8101

Thin profile for performance fit boots

- Thermal top cover adds warmth in cold temperatures
- Comfort foam cushions your whole foot & provides added stability
- EVOLyte® carbon fiber stabilizer cap keeps its shape with every turn
- Deep heel cup cradles your feet for a secure, stable boot fit
- Moisturewick™ for wicking and breathability, plus odor control

SUPERFEET FOR RUNNING

With two distinct collections, there's a Superfeet insole for every runner and walker. From the ultra-cushioned feel of all-new ADAPT insoles to the carbon-fiber responsiveness of RUN insoles, Superfeet delivers support and performance like no other.

NEW

ADAPT INSOLES

Signature Superfeet support in two all-new cushioned running insoles made to flex and adapt with every step, featuring patented Adaptive Comfort Technology™.

AVAILABLE IN TWO STYLES

ADAPT RUN

Sizes: B-F | FL3351

Choose ADAPT Run for a thinner profile and lower arch

ADAPT RUN MAX

Sizes: B-F | FL3350

Choose ADAPT Run Max for maximum contours with a higher arch and deeper heel cup

- Aerolyte™ dual comfort layer helps your foot relax in the shoe and provides optimal cushioning
- Responsive forefoot zone blends cushioning and rebound to maximize energy transfer
- Adaptive Comfort Technology™ - patented design flexes with the foot for efficient heel-to-toe turnover
- Energizing heel cushion disperses impact and reduces vibration to minimize fatigue
- MoistureWick™ with odor control

RUN INSOLES

Get the most out of every mile with the heel-to-toe comfort and support of running insoles made with responsive carbon fiber.

CARBON FIBER

RUN PAIN RELIEF
Sizes: B-F | **FL7864**

EVOlyte[®]
CARBON FIBER

- Remarkable comfort and support in a slim, versatile fit
- Aerospring™ Rebound thin comfort foam delivers comfort in every step
- EVOlyte® carbon fiber stabilizer cap provides responsive, weight-defying support
- H.I.T. (Heel Impact Technology) Pod disperses impact for an easier ride
- MoistureWick™ with odor control

- Therapeutic foam cushions and protects the foot while reducing friction and hot spots
- EVOlyte® carbon fiber stabilizer cap provides responsive, weight-defying support
- Deep heel cup and supportive shape minimizes repetitive stress
- Independent heel stabilizers add extra structure and support, keep the pain-relieving shape closer to the foot
- MoistureWick™ with odor control

SUPERFEET FOR HIKING

Leave pain and discomfort in the dust with Superfeet insoles made especially for hiking and outdoor adventures. Featuring two collections, Superfeet hiking insoles deliver comfort, pain relief and performance like no other insole can.

NEW

ADAPT INSOLES

Flexible cushioning and signature Superfeet support in all-new hiking insoles made to feel like part of your footwear, featuring patented Adaptive Comfort Technology™.

ADAPT HIKE MAX

Sizes: B-F | FL3360

- Two layers of Aerolyte™ comfort foam help your feet relax inside your shoes and provides extra protection on rough terrain
- Responsive forefoot zone blends cushioning and rebound to add a spring to every step
- Adaptive Comfort Technology™ — patented design flexes with you, adapting your footwear to the way your feet move
- Energizing heel cushion disperses impact and reduces vibration to minimize fatigue
- MoistureWick™ for improved wicking and breathability, plus odor control

TRAILBLAZER INSOLES

Whether your customers are out for a rigorous day hike, a backpacking trip or are simply enjoying everyday adventures, Superfeet hiking insoles help them say goodbye to pain and discomfort.

TRAILBLAZER COMFORT

Sizes: B-F | FL4453

TRAILBLAZER COMFORT WOMEN'S

Sizes: B-E | FL4454

- Aerospring™ Ascent dual comfort foam reduces fatigue and provides reliable stability for the rigors of a good hike
- EVOlyte® carbon fiber stabilizer cap improves support and stability for the trail
- Deep heel cup prevents heel slip and toes from hitting the front of the boot
- H.I.T. (Heel Impact Technology) Pod disperses impact for tough ascents and descents
- MoistureWick™ with odor control

SUPERFEET FOR SKATES

From pro athletes to casual players, hockey enthusiasts agree Superfeet and skates are the perfect match. An angled design, supportive shape and venting provide athletes unparalleled fit, comfort and performance on the ice.

HOCKEY INSOLES

CARBON PRO HOCKEY

Sizes: J-G | FL4808

HOCKEY COMFORT

Sizes: J-F | FL4600

UP TO 11% BETTER ACCELERATION ON THE ICE

- Angled midsole matches the profile of a skate to improve energy transfer to the ice
- Aerolyte™ foam supports and cushions the foot
- Responsive EVOLyte® carbon fiber stabilizer cap provides support, structure and stability
- Flybridge™ channels energy for quick starts, crisp stops and tighter turns
- MoistureWick™ with odor control

IMPROVED SKATE FIT & ENHANCED COMFORT

- Thin, heel-to-toe profile designed specifically for skates
- Aerosping Glide™ comfort foam adds cushion and reduces foot fatigue
- Contoured shape stabilizes feet, eliminating friction, blisters and hot spots
- Perforated forefoot improves air circulation and breathability
- MoistureWick™ with odor control

SUPERFEET FOR EVERYDAY

With Superfeet, style doesn't have to hurt. Superfeet casual insoles will change the way your customers feel about their casual, dress and designer footwear.

EASYFIT INSOLES

Adding support and comfort to dress and casual shoes doesn't get any easier. Upgrade your footwear with this patented orthotic design made to help ease aches and pains, combat foot fatigue and keep you going all day long.
